1 more thing about this FOIA – I left you a long-winded voice message about a conversation I had with the requestor. It is just a heads up in case anything significant happens while I'm gone that means this FOIA needs to be sped up.

The attachments to this email were sent by Suzanne Jackson – they were attached to emails provided by NRMRL (2 and 4 on the index) that we now believe to be releasable based on your input. Note that they are all relevant to the CHK case study. Suzanne pointed out that the one called “CHK Review- Tech Memo.pdf” was created by SAIC (see below). Could that be confidential?

Thanks,

Hi Claudia,

I've attached the files that were attached to the responsive emails the NRMRL provided for FOIA request EPA-HQ-2012-001118. Please consult with OGC to determine if the file “Pages from Ltd Hydr Invest Prop 4-25-2012 (2).pdf” is releasable; this may contain proprietary information and we may need to check with SAIC (author of the document) to make sure that it should not be considered confidential and exempt from release.

Thanks,
Suzanne
